

BUILDING BRIDGES. CREATING PERSPECTIVES.

CHARITY LEON

The LEON charity is dedicated to sustainably improving the lives of children in the Philippines who are affected by illness, disability, or poverty. Our goal is not only to alleviate immediate hardship, but also to provide real survival strategies and open up new perspectives for life.

LEON-HELP.ORG

STRONGER TOGETHER FOR THE CHILDREN OF THE PHILIPPINES

Creating perspectives:
Pathways out of hardship
through help for self-help

We don't just provide the bare essentials for survival, but also tools, perspectives, and a sense of community so that children can grow beyond their limits.

And if we can also help elderly people in need along the way, we do so with the same level of dedication.

What we do

With our LEON association, we provide help for self-help for sick and disadvantaged children:

- We promote their individual strengths
- We help them overcome social isolation
- We create opportunities for interaction between children with and without disabilities

Our goal

A society in which acceptance is taken for granted and social networks emerge that provide lifelong support.
